

# Connect to NBI Remote Desktop Services

iOS

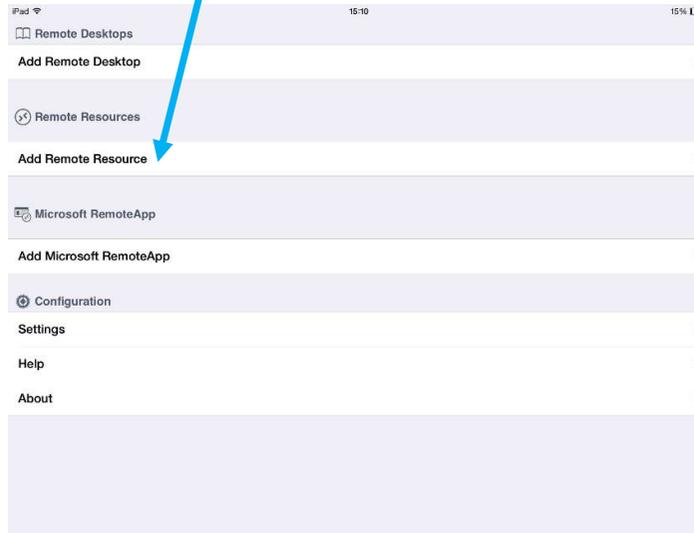

1

Install **Microsoft Remote Desktop** from the App Store

2

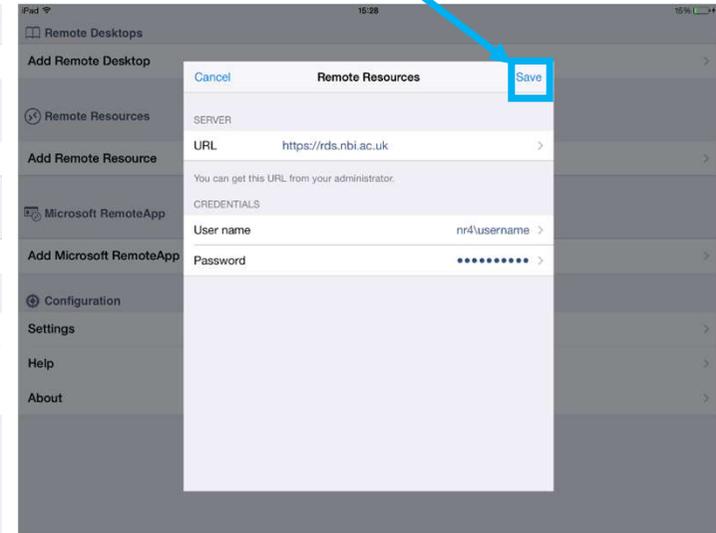

Load the **RD Client** and select **Add Remote Resource**

3

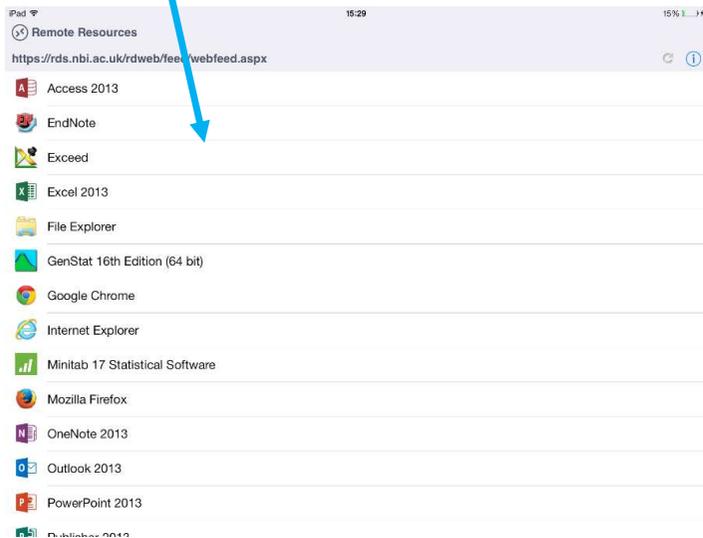

Enter the following details and then tap on the **Save**

**URL** `https://winrds.nbi.ac.uk`  
**User name** `your-domain-username@nbi.ac.uk`  
**Password** `domain-password`

4

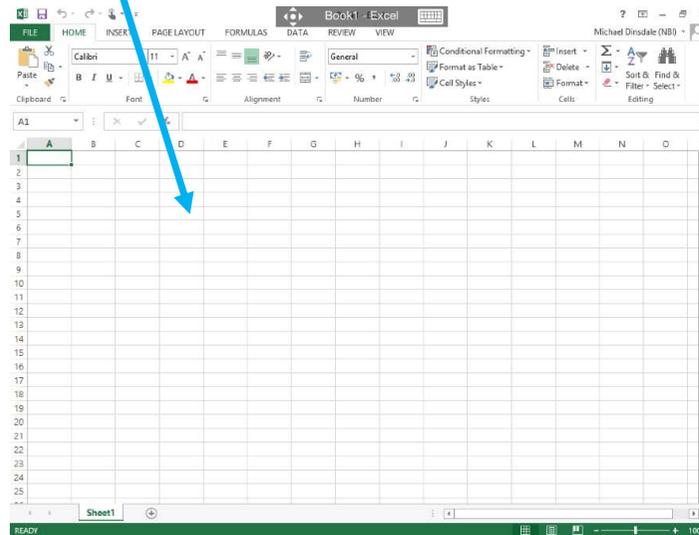

The **RD Client** will display a list of available applications to choose from. Tap the required application to launch it.

5

The example below shows Excel running on an iPad

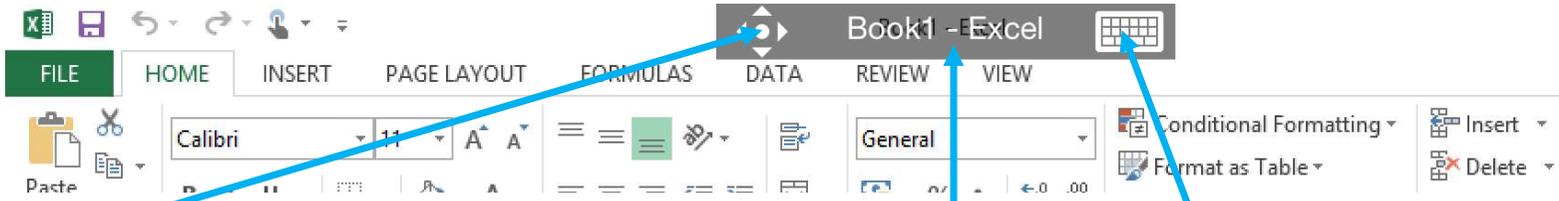

Note: Drive maps are accessible from within the application as normal

# Info
